We can not implement any recommendations without having provided you with a Statement of Advice based on your financial situation, needs and objectives. If you provide limited or inaccurate information about your financial situation, needs and objectives then you are at risk of receiving advice and recommendations from us which is limited in nature and may not be suitable for you.

Our Unique Service Model

Our Financial Planning Approach

At Politis Investment Strategies we know that quality financial planning advice will benefit people in all stages of life. Careful planning and regular reviews of your investment strategy and financial position are vital in achieving your desired outcomes.

➡ Initial Meeting

In our first meeting our aim is to understand your financial situation, needs and objectives. In order to do this, you will be requested to provide all relevant details of your financial situation, needs and objectives; so that we may offer you appropriate advice. This will be recorded in a Data Collection Form.

➡ Analysis

We will carefully analyse all of the information that we have obtained from you, including your tolerance to risk and explore all possible options and strategies that may be applied in achieving your desired outcomes.

➡ Preparation

We will then construct a Statement of Advice outlining what we believe is the most appropriate strategy for you. The Statement of Advice will clearly outline the steps you need to take in order to achieve your goals, and provide details of our recommendations, services and all associated fees.

➡ Presentation

Your Statement of Advice will be presented to you by your Financial Planner. This will give you the opportunity to ask questions that you may have as you read through this document with your Financial Planner. This document will be yours to keep and you may organise further meetings if you require further discussion or have more questions.

➡ Implementation

Politis Investment Strategies will implement all of the recommendations within your Statement of Advice should you wish to proceed.

➡ Ongoing Review Meetings

Regular reviews of your financial position and appropriateness of your investment program will be held with your Financial Planner. These reviews enable us to provide the best possible ongoing advice.

Managed Discretionary Account Services

Investment Management

We provide our clients with the opportunity to grow their wealth by investing in professionally managed investment portfolios also known as Managed Discretionary Accounts. Our portfolios have been designed to satisfy the individual requirements of our clients.

The Politis Investment Strategies portfolios are managed by a dedicated team of professional Investment Managers. Our Investment Managers have a strong knowledge of financial markets through their extensive experience and access to leading investment research.

What is a Managed Discretionary Account?

A Managed Discretionary Account (MDA) is a portfolio of listed securities that is managed on your behalf by a professional investment manager such as Politis Investment Strategies.

Politis Investment Strategies discretion

Under our Managed Discretionary Account Service you give Politis Investment Strategies the authority and discretion to make investment decisions, including all rights related to those investments and any corporate actions, and execute these on your behalf without prior reference to you for each transaction.

Investment Program of the Managed Discretionary Accounts

Politis Investment Strategies offers a number of portfolios (Investment Programs) within its Managed Discretionary Account Service. Your Financial Planner will advise you on the most appropriate portfolio (Investment Program) based on your personal circumstances, financial situation, needs and objectives including your risk tolerance.

The Investment Program of the recommended portfolio, which forms part of the MDA Agreement, will be included in a Statement of Advice (which complies with Division 3 of Part 7.7 and Div. 2 of Part 7.7A of the Corporations Act). The Statement of Advice will be presented to you before you decide to enter into a Managed Discretionary Account agreement with Politis Investment Strategies.

The Investment Program will include;

- the nature and scope of the discretions Politis Investment Strategies will be authorised and required to exercise under the Managed Discretionary Account agreement and any investment strategy that is to be applied in exercising those discretions
- any significant risks associated with the Managed Discretionary Account agreement
- the basis on which the Managed Discretionary Account Service is considered to be suitable for you
- warnings that the Managed Discretionary Account agreement may not be suitable for you if you have provided incomplete or inaccurate information and that the contract may be unsuitable if your circumstances change.

Review of Investment Program

Your Financial Planner must conduct, at least annually, a review of your financial situation, needs, objectives and risk tolerance to ensure that the Managed Discretionary Account Investment Program remains suited to your personal circumstances.

Advice will be provided to you about whether the Managed Discretionary Account Investment Program continues to be suitable for you in light of your financial situation, needs, objectives and risk tolerance. To conduct a regular review is a legal requirement and your Financial Planner will contact you to arrange a suitable date.

Managed Discretionary Account Agreement

Before we can provide you with Managed Discretionary Account Services you will need to enter into a Managed Discretionary Account agreement with us that outlines the discretion and authorities that Politis Investment Strategies has in providing these services to you.

Custodial or Depository Services

For SMSF and Non-Superannuation accounts, Politis Investment Strategies does not provide custodial and depository services in relation to our Managed Discretionary Accounts. This means that you will be the legal owner of your investments, with all of investments being registered and held in your name. Your investments will be held with the nominated clearing broker in your account and not with Politis Investment Strategies.

For Retail Superannuation Accounts, Politis Investment Strategies does not provide custodial or depository services in relation to our Managed Discretionary Accounts. Politis Investment Strategies accounts are offered by utilising the administration services of a regulated platform. BT Portfolio Services Limited (ABN 73 095 055 208; AFSL 233715) (**BT Portfolio Services**) has been selected by Politis Investment Strategies to provide regulated platform services. As part of these services, assets that will be managed under the terms of your MDA agreement will be held by BT Portfolio Services as the operator of the regulated platform, or a custodian they appoint, on trust for you. You will be required to execute offer documentation provided by BT Portfolio Services in respect of the services BT Portfolio Services will provide.

You may contact BT Portfolio Services in the following ways:

By mail

BT Portfolio Services Limited
Level 20, Westpac Place
275 Kent Street
Sydney NSW 2000

By email

panoramainvestments@btfinancialgroup.com

All investments, other than listed securities, will be held in the name of BT Portfolio Services as part of their regulated platform services. BT Portfolio Services will therefore be the legal owner of these investments held on trust for you, meaning you will retain beneficial ownership.

For listed securities, BT Portfolio Services has appointed a sub-custodian, The Hongkong and Shanghai Banking Corporation Limited, Sydney Branch (ABN 65 117 925 970; AFSL 301737) of Level 36, Tower 1, International Towers Sydney, 100 Barangaroo Avenue, Sydney NSW 2000 (HSBC), which will hold these investments on trust for BT Portfolio Services. HSBC will therefore be the legal owner of these investments held on trust for BT Portfolio Services. BT Portfolio Services in turn will hold the beneficial interest in those investments for you.

Risks associated with Managed Discretionary Accounts

In addition to the risks normally associated with investing, there can be additional risk by investing in Managed Discretionary Accounts.

Your Managed Discretionary Account agreement with Politis Investment Strategies conveys full discretion to Politis Investment Strategies for management of your portfolio. This may result in transactions being entered into that you may have not necessarily undertaken if given the opportunity to provide pre-approval.

There can be no assurance that the Managed Discretionary Account will achieve its investment objectives and no assurance can be given that the strategies employed by Politis Investment Strategies in the past to achieve attractive returns will continue to be successful or that the return will be similar to that achieved in the past. The investment decisions made by Politis Investment Strategies are subject to various market, currency, economic, political and business risks, and those investment decisions may not always be profitable and may at times result in loss.

The success of the Managed Discretionary Account is dependent on the skill and capacity of the Investment Management team at Politis Investment Strategies to identify appropriate investment opportunities. Politis Investment Strategies is mitigating this risk by employing only highly skilled and experienced Investment Managers and has stringent processes in place to monitor all Managed Discretionary Account activities. Actions that Politis Investment Strategies takes pursuant to the discretion may trigger a capital gains tax liability, depending on your personal tax position. You should seek advice about the tax implications that would be applicable to you.

It is important you understand what we are authorised to do and that you carefully read and understand the activities we will undertake on your behalf.

How you can instruct us on Corporate Actions and Voting Rights relating to the financial products in your portfolio

If we are notified of any intending corporate actions, Politis Investment Strategies will use its discretion on the appropriate action. Politis Investment Strategies will consider any rights relating to investments and, unless instructed otherwise by you and agreed by us in writing, has a discretion to exercise (or refrain from exercising) any rights relating to investments, without consulting you in relation to those rights.

Politis Investment Strategies does not accept an obligation to consider exercising voting rights. Unless you instruct us in writing to the contrary, we will not pass on any information in respect of voting rights.

You may provide instructions to Politis Investment Strategies, in writing, by sending those instructions to our email address or address listed on page 2 of this document. Politis Investment Strategies will consider your instructions and if agreed to by us in writing following consultation with you, will implement them accordingly.

Fees and costs associated with the Managed Discretionary Account service

The actual fees and costs relevant to your Managed Discretionary Account will be detailed in the Statement of Advice that will be presented to you.

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask Politis Investment Strategies or your Financial Planner.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed investment fee calculator to help you check out different fee options.

This table shows fees and other costs that you may be charged. These fees and costs may be deducted from your investment, the returns on your investment or from the Managed Discretionary Account service assets as a whole. You should also seek advice on the tax implications of your Managed Discretionary Account portfolio. You should read all of the information about fees and other costs, as it is important to understand their impact on your investment.
